

CoilJet Chemical Compatibility

These lists are not all-inclusive or exclusive.

Materials Used In CoilJet (CJ-75, CJ-95, CJ-125)

Aluminum
Brass
Buna-N/Nitrile
EPDM
Santoprene
Viton
Nylon
Polyethylene
Polypropylene
PVC
Zinc-plated Steel

Compatible Chemicals

Glycol Ethers:
Ethylene glycol monobutyl ether
Propylene glycol ether
Dipropylene glycol monomethyl ether
Sodium metasilicate (low concentrations)
Triethanolamine (low concentrations)
Monoethanolamine (low concentrations)
Sodium phosphate, tribasic (STPP)
Sodium phosphate, tribasic (TSP)
2-Bromo-2-nitropropane-1, 3-diol

Non-Compatible Chemicals

Sodium hydroxide
Potassium hydroxide
Ammonium Bifluoride
Most Acids, Including:
Hydrofluoric acid
Sulfuric acid
Hydrochloric acid
Sulfonic acid
Nitric acid

Name Brands to Avoid

Virginia KMP Acti-Brite
